

**Nijmegen, The Netherlands**  
**28-29 October 2021**

**8th edition**

# **CMC- CORPORA**

**CMC corpora 2021 is the 8th edition of an annual conference dedicated to the development, analysis, and processing of corpora of computer-mediated communication and social media for research in the humanities.**

The conference brings together language-centred research on CMC and social media in linguistics, communication sciences, media studies, and social sciences with research questions from the fields of corpus and computational linguistics, language and text technology, and machine learning.

### **Call for papers**

We welcome submissions broadly related to CMC and corpora, including (but not limited to):

- Development of CMC and social media corpora
- Linguistic analysis of CMC and social media corpora
- Natural language processing of CMC or social media data
- Text mining of CMC content

We invite two types of submissions:

- short papers (2-4 pages, following the existing template) for oral presentations
- abstracts (max. 300 words) for poster presentations
