

14th International Conference on Finite-State Methods and Natural Language Processing (FSMNLP 2019)

September 23 – 25, 2019, Dresden, Germany

The international conference series "Finite-State Methods and Natural Language Processing" (FSMNLP) is the premier forum of the ACL Special Interest Group on Finite-State Methods (SIGFSM). SIGFSM serves researchers and practitioners in natural language processing (NLP) working on:

- natural language processing (implementation, applications, language resources),
- theoretical aspects, or
- combinations thereof,

that have obvious relevance or an explicit relation to finite-state methods.

Tutorial:

- Aarne Ranta (University of Gothenburg, Sweden)

Invited talks:

- Frank Drewes (Umeå University, Sweden)
- Kilian Gebhardt (Technische Universität Dresden)

Important Dates:

- deadline of submission: June 14
- notification: July 29
- camera-ready version: August 26
- registration: until September 10

There is no conference fee.
