

Venue & Important Dates
Venue : Kuala Lumpur, Malaysia

Important Dates:

Announcement First Call for Papers	: 17 th December 2018
Second Call for Papers / Date for Abstract Submission (First Call)	: 31 st January 2019
Date for Final Abstract Submission	: 17 th February 2019
Notification of Abstract Acceptance	: 17 th March 2019
Submission of Full Paper	: 17 th May 2019
Notification of Paper Acceptance	: 17 th July 2019
Final Paper Submission	: 17 th August 2019

Registration Fees:

Presenter : USD 350 (International)
MYR 350 (Malaysian & Student)

Participant* : USD 150 (International)
MYR 150 (Malaysian & Student)

Please be informed that the above registration fees INCLUDE food and beverages during the conference sessions, but EXCLUDE airfares, accommodation and technical visit fees. Kindly make your own and earlier travel arrangements.

* (including non-submitting paper attendees)

Abstract Submission

Abstracts, of not more than **300 words**, should clearly state the title, authors and organisation, background, objectives, methodology, results and findings, and conclusions/implications. Please submit only one abstract per submission.

All abstracts should be submitted by e-mail to the ICMA 2019 Secretariat at secretariat@icma2019.com no later than **31st January 2019**.

The official language of ICMA 2019 is English.

Paper Submission

Upon acceptance of abstract, papers must be submitted to www.icma2019.com. The papers **MUST** include the following details:

- title;
- author(s);
- organisational affiliation;
- keywords and corresponding person email address.

Accepted papers will be published in the conference proceeding upon paid registration. We encourage early submission of abstracts and papers to facilitate registration and travel arrangements.

More information on the conference, venue, hotel accommodation and the registration fee is available at www.icma2019.com.

Kindly email to ICMA 2019 Secretariat at secretariat@icma2019.com for any enquiries.

Who Should Submit A Paper and Attend?

The International Conference on Mosque Architecture (ICMA) is a triennial conference that focuses on the mosque architecture and currently owned by the Abdullatif Al Fozan Award for Mosque Architecture (www.alfozanaward.org). Hence, the ICMA 2019 in Kuala Lumpur, Malaysia will be the second edition after the first conference held at the Imam Abdulrahman Bin Faisal University (IAU) in Dammam, Saudi Arabia in the year 2016. ICMA is also co-organised by the Kulliyah of Architecture and Environmental Design, International Islamic University Malaysia (IIUM) and ATSA Architects, Malaysia. This conference will be of interest to:

- Academics
- Architects
- Conservators
- Designers
- Developers
- Engineers
- Estates/Capital Development
- Government and Local Authority Officers
- Islamic Affairs Professionals
- Landscape Architects
- Mosque Administrators
- Quantity Surveyors
- Researchers
- Students
- Urban Planners
- General Public

THE 2ND INTERNATIONAL CONFERENCE
ON MOSQUE ARCHITECTURE
(ICMA) 2019

Call for Papers

Organised by:

Abdullatif AlFozan Award for Mosque Architecture, Saudi Arabia (AFAMA)

Kulliyah of Architecture and Environmental Design, International Islamic University Malaysia (IIUM)

ATSA Architects, Malaysia

Introduction

A mosque or *masjid*, in Arabic, is often referred to as a place of worship for the Muslims and is associated with the ritual act of prayer or *solat* or *salah* to almighty Allah. The mosque, as a structure, is also described as a religious building, built to serve Muslim men and women, the *Ummah*, not only as a place dedicated to ritual prayers but also as a centre of learning and a place to conduct various activities in sustaining the well-being of the community.

In the mosque, one can learn and experience the customs and traditions, which were passed down by the previous generations, in expressing one's true beliefs and spiritual passion. These customs and traditions through practice may relate to how the mosque is customary used and one's relationship with the mosque, as the house of Allah.

Mosques in both urban and rural areas, are built not only as a religious symbol nor a visual focal point. They serve the need for the five congregational daily prayers and the weekly Jumaat or Friday prayer to fulfil the practical and spiritual needs of the Islamic religion. In addition, a mosque is also a place that usually serves to balance one's everyday life. It is very common in majority Muslim communities to allocate a suitable area for a mosque within a township.

Stepping into the twenty-first century, it is timely to re-look and re-examine the role and functions played by the mosque in the local community and global context as a whole. Mosque of today must functioned as the 'centre' of a community providing a place to conduct many Islamic obligations and daily activities from cradle to grave. A mosque should also be designed and functioned as 'family-friendly' centre providing supports for modern Muslim family lifestyle, including providing daycare for the children and elderly parents.

Through this conference, the papers presented will intellectually analyse and discuss the "practical and scientific" vision of the future architecture of mosques from the underlying function, design, technology and structures.

To achieve these objectives, two broad topics covering function, design, technology and structures are highlighted in this conference. These two topics are further scrutinised to variants of subtopics, which include:

- i) future cities and communities,
- ii) space and form
- iii) innovations and technologies,
- iv) green architecture and materials,
- v) environmental and energy issues and
- vi) universal design in mosque architecture.

Relevant research papers on the proposed topics are most welcome for further review by the scientific committee of the conference.

Organisational Committee:

1. Ar. Azim A. Aziz ATSA Architects (Acting Head)
2. Prof. Mashary Al Naim AFAMA
3. Dr. Hani M. Al Huneidi AFAMA
4. Assoc. Prof. Ar. Datin Dr. Norwina Mohd Nawawi IIUM
5. Asst. Prof. Dr. Zaiton Abdul Rahim IIUM
6. Syed Kamal Affendi Syed Mustapha ATSA Architects
7. Mohamad Haziq Zulkifli ATSA Architects
8. Siti Salwa Mohd Sayuti ATSA Architects

Scientific Committee:

1. Assoc. Prof. Dr. Noor Hanita Abdul Majid
(Chairman of Scientific Committee)
Kulliyah of Architecture and Environmental Design,
International Islamic University Malaysia (IIUM)
2. Prof. Adel Al Dossary
Dean, College of Environmental Design,
Chairman, City and Regional Planning Department,
King Fahd University of Petroleum and Minerals, Dharan, Saudi Arabia
3. Prof. Ali Abughanimeh
Dean, College of Engineering,
Jordan University, Jordan
4. Prof. Ashraf M. Salama
Head of Architecture,
University of Strathclyde, United Kingdom
5. Prof. Hassan Radione
Director, School of Architecture, Planning and Design,
Mohammed VI Polytechnic University, Morocco
6. Prof. Samer Akkach

Kulliyah of Islamic Revealed Knowledge and Human Sciences,
International Islamic University Malaysia (IIUM)
16. Asst. Prof. Dr. Aida Kesuma Azmin
Kulliyah of Architecture and Environmental Design,
International Islamic University Malaysia (IIUM)
17. Asst. Prof. Dr. Lukman Hakim Mahmod
Kulliyah of Architecture and Environmental Design,
International Islamic University Malaysia (IIUM)
18. Asst. Prof. Dr. Nurul Hamiruddin Salleh
Kulliyah of Architecture and Environmental Design,
International Islamic University Malaysia (IIUM)
19. Asst. Prof. Dr. Zumahiran Kamarudin
Kulliyah of Architecture and Environmental Design,
International Islamic University Malaysia (IIUM)
20. Asst. Prof. Dr. Zuraini Denan
Kulliyah of Architecture and Environmental Design,
International Islamic University Malaysia (IIUM)

Conference Theme And Topics

The Second International Conference on Mosques Architecture 2019, themed "**Future: Mosque: Architecture**", covers the following topics and subtopics:

Topics: Future, Mosque, Architecture: Design and Functions

Sub-topics

- Regional design of mosque
- Mosque architectural spaces and boundaries
- Future architectural elements of a mosque
- Community mosque in urban centres
- Mosque as social and cultural place from womb to tomb
- Mosque as living architecture and cultural heritage
- Mosque and commercial urban neighbourhoods
- Universal design in mosque architecture

Topics : Future, Mosque, Architecture: Green Architecture, Environment and Innovations

Sub-topics

- Innovative rehabilitation of old mosques
- Innovative technologies in spiritual contemplation
- Digital mosques and environment
- Innovative Islamic aesthetic and patterns
- Innovative craftsmanship in construction
- Green architectural design strategies and policies for mosques
- Green and sustainable structures
- Communities and sustainable system

Conference Side Activities (Workshops And Tours)

Plenty of side activities will be organised concurrently with the main conference event. Details of the programme will be updated soon. Kindly contact the secretariat or visit the official website for more information.
