CHRIST (Deemed to be University)  
Delhi-NCR

## ABOUT THE CONFERENCE

Society 5.0 integrates Industry 4.0 with technical advancements to improve quality of life, social responsibility, and sustainability to put people at the centre of innovation. This innovative viewpoint aligns with the UN's Sustainable Development Goals in several ways. "Society 5.0" and "Industry 5.0" refer to a paradigm shift in societies and economies. Current Industry 5.0 trends aim for a sustainable, human-centric, and resilient industry. Society 5.0 is a comprehensive strategy on science, technology, and innovation for a people-centered super-smart society. In this context, this international conference aims to bring together academic, industry, and practice perspectives for discussion and debate to envision Industry 5.0 and a smart Society 5.0.
