Wisman Setiawan, Ph.D

Prof. Oscar Bragos

Prof. Erni Setyowati

Dr. Yuke Ardhiati

Academics, practitioners, and research students are invited to submit original research articles, disseminating original ideas and findings for enhancing the quality of the built environment to achieve sustainable development goals. Articles of the following topics are invited to be disseminated and published.

- Architectural history and conservation
- Urban planning and design
- Smart building and city
- Green architecture and city
- Architectural theory and critics
- Architectural and city's sustainability

Submitted articles will be reviewed through blind peer review. Select articles will be published in International Journal of Built Environment and Scientific Research (IJBESR). Other accepted articles will be published in the IConWUPCD online proceeding using Open Journal System (OJS).

Registration through ConfTool: bit.ly/iconwupcd
