

## Call for Papers

### The 38th International Conference on ICT Systems Security and Privacy Protection

The IFIP SEC conference is the flagship event of the International Federation for Information Processing (IFIP) Technical Committee II: Security and Privacy Protection in Information Processing Systems ([TC-II](#)).

We seek submissions from academia, industry and government presenting novel research on all theoretical and practical aspects of security, privacy protection in ICT Systems and cybersecurity of new Internet technologies. We are especially interested in AI (Artificial Intelligence) and big data analysis supporting security aspects.

**Practitioners and industry representatives are encouraged to submit papers.**

### Topics

We welcome contributions within, but not limited to, the following areas:

- Access control and authentication
- Applied cryptography
- Audit and risk analysis
- Big data security and privacy
- Cloud security and privacy
- Critical infrastructure protection
- Cyber-physical systems security
- Data and applications security
- Digital forensics
- Human aspects of security and privacy
- Identity management
- Industry networks security
- Information security education
- Information security management
- Information technology misuse and the law
- IoT security
- Managing information security functions
- Mobile security
- Multilateral security
- Network & distributed systems security
- Pervasive systems security
- Privacy protection and privacy-by-design
- Privacy-enhancing technologies
- Quantum computations and post-quantum cryptography
- Side-channel attacks
- Surveillance and counter-surveillance
- Trust management

### Paper submission

Submitted papers must be original, unpublished, and not submitted to another conference or journal for consideration. The selected papers will be presented at the conference and published at the Springer series [IFIP Advances in Information and Communication Technology](#).

All papers must be written in English. Submissions should be at most 14 pages long in total including references and appendices. Submissions should not be anonymised. PC members are not required to read the appendices, so the paper should be intelligible without them. Authors must follow the Springer LNCS formatting instructions.

Each paper will receive at least three reviews. At least one author of each accepted paper must register by the early registration date indicated on the conference website and present the paper. For each accepted paper, at least one full registration is necessary.

From 2021 Computers & Security, published by Elsevier, is honoured to sponsor the Best Paper Award at the annual IFIP's SEC conference. The annual award will carry a prize to the value of USD \$1,000 and an extended version of the paper will be invited for publication in the journal.

Papers have to be submitted via the [EasyChair](#).

### Important dates

Submission deadline	February 27, 2023 March 12, 2023
Notification of acceptance	April 3, 2023
Camera-ready papers	April 28, 2023
