

# ParSocial2024

8th IEEE (IPDPS) Workshop on Parallel and Distributed  
Processing for Computational Social Systems

May 31, 2024, San Francisco, California, USA

Paper submission deadline: February 16, 2024

## Main Topics

**Large scale modeling and simulations for social systems**

**Social computing algorithms for parallel and distributed platforms**

**Applications (emergency management, social analytics, health science, financial technology)**

**Harnessing ML, DL, and LLMs for Computational Social Systems**

## Workshop Co-chairs

**Dr. Hien Nguyen**

Associate Professor, CS

University of Wisconsin-Whitewater

**Jeremy Thompson**

Associate Professor, EE & CS

Washington State University Everett

<https://lcid.ischool.illinois.edu/parsocial>

The 8th IEEE Workshop on Parallel and Distributed Processing for Computational Social Systems (ParSocial) provides a platform to bring together interdisciplinary researchers from areas, such as computer science, social sciences, applied mathematics and engineering, to showcase innovative research in computational social systems that leverage the emerging trends in parallel and distributed processing, computational modeling, and high performance computing.
